

Escape Room

Will you
successfully
escape?

This incredibly popular team building activity is the perfect event for remote working employees to take part in. Working in teams of 6 to take on the challenge, attendees are required to use their teamwork, problem-solving and critical thinking skills to make it out of the escape room in time.

Participants will use their smartphone devices to work their way through a myriad of clues by tapping on the objects throughout the room. They must progress through the three stages of The Virtual Escape challenge as quickly as they can, while correctly completing questions and challenges as they go.

Teams who employ a thoughtful strategy and manage their time carefully will succeed. The aim of the game is simple; solve the clues to crack the code and break free, all before you run out of time.
